## How to Order Leather

Leather is sold by the hide on a square foot basis. Whole hides generally run approximately 45-55 sq. ft. Equivalents of leather square footage to 54 inch wide fabric goods are shown below:

17 sq. ft = 1 yd  
119 sq. ft = 7 yds  
68 sq. ft = 4 yds  
170 sq. ft = 10 yds

51 sq. ft = 3 yds  
153 sq. ft = 9 yds  
102 sq. ft = 6 yds

85 sq. ft = 5 yds  
34 sq. ft = 2 yds  
136 sq. ft = 8 yds

SECTION A should be used in cutting seat tops, inside back, cushion bands and other sections that will see the most strain and use. This is the prime portion of the hide.

SECTION B should be used for outside arms, backs or any other parts of the seat that receive little or no flexing.

## How to Care for Leather

Leather is one of the most durable materials available, but it is not indestructible. Wipe it occasionally with warm water and a non-alkaline soap, no polishes, waxes or saddle soaps are necessary. The oils are sealed in, buffing with a soft cloth is all the polishing needs.

Average Hide Size: 44-55 sq. ft.

\*ZL5353 Available in half hides only

# CLEANING CODES

**S:** Spot clean the upholstery fabric with a water-free product, such as a mild water-free solvent or dry cleaning product.

**SW:** Spot clean with upholstery shampoo, foam from a mild detergent or a mild dry cleaning solvent. Do not saturate with liquid. Pile fabrics may require brushing to restore appearance. Don't remove cushion covers or arm caps for separate cleaning as this may damage or destroy the backing, cause colour changes and promote shrinking.

**W:** Clean the upholstery fabric with a water-based detergent such as mild detergent and water mixture or a foam upholstery cleaner.

**WS:** Clean the upholstery fabric with either a water based or a water-free cleaner, depending on the type of stain. Use a professional furniture cleaning service if the fabric is heavily soiled.

**X:** This upholstery fabric must be professionally cleaned. Never use any type of upholstery or water-based cleaner on the piece yourself. You should only vacuum and brush upholstery with this designation.
